📍 Lahore, Pakistan  LinkedIn  Github

EDUCATION

Intermediate in Computer science,
Government Graduate College Gulberg

2023 – 2025

SKILLS

Frontend :

React.js, JavaScript (ES6+), HTML5, CSS3,
Tailwind CSS, Bootstrap , Material Ui

Backend:

Python, FastAPI, Railway
AI/APIs: Groq AI API, REST APIs, TMDB API,
OpenWeather API

Tools:

Git, GitHub , Vercel

PROJECTS

Roast Bot, — *React.js, FastAPI, Groq AI API*

- Built and deployed a full-stack AI web app with React frontend and FastAPI backend
- Integrated Groq AI API with a custom system prompt for personalized roast generation
- Deployed frontend on Vercel, backend on Railway with CORS and environment variable configuration
- [[🔗 Github](#)] [[🔗 Vercel](#)]

Cinephile streaming App, — *React.js, Tailwind CSS, TMDB API*

- Built a Netflix-style streaming platform with movie and TV show rows, category browsing, and a dynamic hero slider
- Implemented live search with pagination and hover-to-preview movie details on homepage
- Integrated TMDB API for real-time data fetching and third-party player for streaming functionality
- [[🔗 Github](#)] [[🔗 Vercel](#)]

Personal Portfolio Website, — *React.js, Tailwind CSS*

- Designed and developed a fully responsive personal portfolio showcasing projects and skills
- Integrated smooth animations and responsive design optimized for all screen sizes
- [[🔗 Github](#)] [[🔗 Vercel](#)]

React Weather App, — *JavaScript, OpenWeatherMap API*

- Developed a weather app that fetches real-time temperature, wind speed, and humidity by city name
- Integrated OpenWeatherMap API for live data retrieval
- [[🔗 Github](#)] [[🔗 Vercel](#)]
